TRAIL

To take a walk on the Mont Chemin mines pathway is to go into raptures over the colours of the larch forest "on fire" in autumn!

Set in the middle of rich and fascinating vegetation, away from the tourist resorts, dotted with old disused mines and educational panels, this trail is a genuine witness of the past. With remarkable geology and a subsoil containing more than 150 minerals, Mont Chemin takes advantage of the well-drained soils to give rise to a splendid larch forest.

Path to follow:

Col des Planches > Tête des Econduits > Chez Larze > Col des Planches
