

— THE CAR MUSEUM —

An exceptional collection of forty cars, with makes as prestigious as Rolls-Royce, Bugatti, Mercedes-Benz, Alfa Romeo...

Inaugurated in June 1981, the museum is entrusted to Fortunato Visentini, a mechanic from Martigny who is passionate about old cars. Very skilfully, he manages to make all the cars in the museum live again. Over the years, the Museum's collection has grown with the arrival of many prestigious vehicles.

All the cars represent the history of the motorcar before the First World War and the fabulous epoch of the automobile industry. Tested, they are all in working state.
