# **CONCERT OF OESCH'S DIE DRITTEN**

---

## **Concert**

Oesch's die Dritten is a program in itself and its music is unique, authentic and recognizable among all. With more than 200 television appearances and nearly 1,600 concerts in 14 countries, this musical family is one of the most prominent Swiss bands. The six friendly musicians only need a moment to convey their enthusiasm, joy and passion to the audience. Thanks to this energy, Oesch's die Dritten manage to dust off the image of popular music without denying its roots. A blend of styles and musical contrasts are once again on the programme of this new tour throughout Switzerland, always close to Swiss values.
